

SmacqModule

```
graph BT; ThreadedSmacqModule --> SmacqModule;
```

The diagram illustrates a class inheritance relationship. At the top, a white rectangular box with a black border contains the text 'SmacqModule'. Below this box, two blue arrows point upwards towards the bottom edge of the box. These arrows originate from a black rectangular box at the bottom of the image, which contains the text 'ThreadedSmacqModule' in white. This visualizes 'ThreadedSmacqModule' as a subclass that inherits from 'SmacqModule'.
